Could Your Practice Benefit from a Profitable Payroll Service?

Could Your Practice Benefit from a Profitable Payroll Service?

Payroll is not typically a service that accountants want to provide. Resource-intensive, complex and subject to regular legislative change, this low margin, time consuming service is usually offered only as part of a wider portfolio of accountancy provision, to keep pace with competitors and offer a full package of accounting services. Additionally, in certain circumstances accountants, are excluded from providing payroll services to their clients. For instance accountants can not provide payroll services to clients they are auditing, because the threat to their independence is considered to be too great to be mitigated by any safeguards.

However, despite its complexities and specialisms, payroll is a particularly easy service to outsource, immediately alleviating the challenges associated with delivering it inhouse and allowing you to increase margins and enhance the portfolio of services available to your clients. Instead of managing a costly and inefficient inhouse payroll function, your time can be spent concentrating on your core business – developing your accountancy services and improving client relationships.

At Paycheck Plus, we work in partnership with our clients to ensure a fully compatible and highly integrated payroll service. We provide you with the flexibility and security that you need, knowing that our CIPP and IPASS qualified staff are always available to assist you when you need it. Our diverse team of accountants, HR professionals and account technicians are highly experienced and capable of remedying any payroll challenges your business may encounter.

We take great pride in our accuracy, responsiveness, security and accountability. Our payroll teams routinely track the accuracy of their calculations and with a precision rate of 99.99% you can be confident that with Paycheck Plus your payroll will be accurate, on-time and fully compliant.

With our very best wishes,

Bróna Grogan

How Outsourcing Can Help

The challenges presented by delivering a payroll service can be easily overcome by outsourcing it to a specialist payroll provider, like Paycheck Plus. As part of our affiliate program, we deliver a discreet payroll service for accountants – eliminating the headache and risk associated with resourcing the service inhouse.

Save Time and Resource

The cost of delivering a payroll service is often underestimated, and for many accountants, it is at best a cost-neutral service. By outsourcing your payroll service, you no longer need to staff and resource an inhouse team. Not only will this free up valuable office space for use by more profitable activities but the administrative and management burden of overseeing the payroll function is eliminated. Furthermore, you will avoid the recruitment costs associated with hiring payroll staff.

Payroll is a low margin, resource-heavy service to provide, particularly when associated costs are accounted for. By outsourcing your payroll service, these expenses are eliminated, increasing your margins and allowing your business to allocate valuable resource and space to more profitable endeavours.

Reduce Risk

Payroll is fraught with difficulty. From a reliance on data entry to regular changes in legislation, it is a challenging service to deliver effectively, particularly when you consider clients' expectation of complete accuracy.

The only way to mitigate this risk inhouse is to employ payroll experts. Without inhouse payroll specialists, regular employee training, and periodic payroll auditing, the risk of calculation errors is high. But the cost of inhouse specialists is likely to reduce margins to an unsustainable level.

By outsourcing your payroll service, you have access to a team of specialists, all of whom are experts in payroll legislation. They will ensure that your clients' payroll is completed in accordance with current legislation, immediately reducing risks whilst allowing you to maintain or potentially increase your profits.

How Outsourcing Can Help

Avoid Conflicts of Interest

By outsourcing your payroll service, you can avoid any conflicts of interest that may arise with other services you offer to clients.

In particular conflicts arising from the Code of Ethics for Professional Accountants (the Code) issued by the International Ethics Standards Board for Accountants (IESBA) and Articles 4 & 5 of the European Regulation 537/2014 which prohibit auditors from providing payroll services to their clients.

Enhance your Payroll Provision

When you outsource your payroll service to Paycheck Plus, you will immediately have access to our full portfolio of payroll features, including e-payslips, highly automated payroll operations, a collaboration platform, and detailed reports.

Our cloud-based payroll platform helps you manage your payroll operations and compliance requirements in a secure, reliable and efficient manner. Allowing for an improved customer experience, streamlined and automated workflows, increased security and data protection and greater transparency of data and processes.

These enhancements (which would be challenging to implement inhouse without significant investment in specialist software) will allow you to improve the payroll service you offer to your clients. In this way you can gain a competitive advantage, potentially charge a little more and increase your margin.

Why Choose Paycheck Plus for Your Payroll Services

Paycheck Plus is an award-winning payroll bureau, serving businesses across the UK and Ireland. We provide comprehensive, ISO accredited, cost effective payroll outsourcing services to accountants of all sizes.

High-Quality Payroll Service

We process more than 300,000 payslips and €650,000,000 worth of payments every year. Our ISO accredited payroll bureau has won 30+ awards for excellence in our payroll services and our team of CIPP and IPASS accredited payroll processors maintain a 99.9% accuracy rate in their payroll calculations.

Specialising in all aspects of payroll, our expert team is highly experienced in Irish payroll processing, including; payslip delivery, pension calculations, payroll reporting and managing Local Property Tax (LPT) deductions, SARP relief, redundancy, share options and exclusion orders. While our UK team are equally experienced in all aspects of UK payroll processing including Bacs facilitation and completing P11Ds for benefit-in-kind returns.

Dependable and Trustworthy Service

Our ISO and ISAE accredited payroll bureau has been providing accountants with the country's best payroll service for over 16 years. Several of the world's largest international accountancy firms and payroll providers choose Paycheck Plus to manage Irish and UK payrolls for their clients.

Additionally, we will automatically enter into a strict non-poaching agreement. You are our client, and we will work as your partner to deliver an excellent payroll service to your clients.

Why Choose Paycheck Plus for Your Payroll Services

Broad Range of Services

Whether your clients are located in the UK or in Ireland, our highly-trained team of payroll experts are well-versed in all payroll-related complexities including Payslip Delivery, Bacs Facilitation, Pension and Share Award Calculations, Local Property Tax (LPT) Deductions, Benefit-in-Kind Returns, Payroll Reporting and much more.

If your accountancy firm deals with a lot of new businesses, we can also help with Irish Revenue Commissioner registrations as well as providing support and guidance to help your clients understand their responsibilities as an Irish employer.

What's more, with our service you will often be able to offer a faster turnaround time for projects, as you will have a much larger and more experienced team to call upon.

Dedicated Payroll Support Services

Our industry leading support services include dedicated account management and a highly trained customer care team.

Clients can also avail of a customer support service which provides confidential advice and online support for employees as well as access to forms, leaflets and guides to ensure employees get the most from their pay.

Improved User Access and Security Controls

As an ISO accredited Payroll Service and Ireland's only payroll bureau to operate from a strict cleanroom environment. We are held to a standard usually reserved for Scientific Research.

The strict security controls that form part of our payroll service make certain that user access to our systems is tightly managed and a comprehensive audit trail is maintained at all times.

This will ensure that both you and your clients benefit from the maximum obtainable security protection.
